ITALY WILL PLUNGE INTO BIG EUROPEAN WAR

MANY GUESTS EXPECTED AT MIRAMAR BALL

Everything is in readiness for the grand ball of Miramar Chapter of Eastern Star which is to be held at East Shore park tomorrow evening. The committee in charge of the affair late this afternoon finished the work of decorating the hall.

Invited guests to the number of 500 are expected in attendance at the affair from San Francisco, Oakland, Alameda and Berkeley.

Attorney Hiram Jacobs, past worthy patron of Miramar Chapter, Eastern Star, has been selected to act as floor manager for the evening and will be ably assisted by Worthy Matron Mrs. T. T. Cramer, Mrs. J. F. Cassidy, chairman of the committee on arrangements, and Worthy Patron Roy Fernald.

Other members who will act in making the affair one of the most gorgeous ever held in this city will be: Mrs. E. J. Garrard, Mrs. T. T. Cramer, Mrs. D. Hopkins, Mrs. S. H. Gnaga, Mrs. L. Adams, Mrs. T. P. Jacobs, Mrs. C. D. Horner, Mrs. S. H. Curry, Mrs. W. S. Runyon, Roy Fernald, Will Baker, T. W. Adams, Eric Horner, Mauriel Dicely, committee of arrangements, and Mrs. W. S. Runyon, Mrs. D. Hopkins, Mrs. R. L. Parker, Mrs. S. H. Gnaga, Mrs. S. Curry, Mrs. R. Greathouse, Mrs. A. Houghton, Mrs. P. Fitzpatrick, Herbert Rumrill and Lee Adams, reception committee.

CASHIER SAILS HIGH WHILE ON VACATION

A trip in a flying boat at an altitude of 800 feet with Aviator Tony Janis, a visit to the gambling dens in Tia Juana and a passenger on the turbine "Yale" in the recent storm which swept the Pacific coast are several of the thrilling experiences which Forrest Winfree, cashier for the Western States Gas and Electric company recently underwent while on his vacation.

Winfree returned to this city yesterday morning on the turbine "Harvard" from San Pedro where he visited with relatives and friends.

"The flight in the hydroplane was my most fascinating experience," stated the young cashier, "as I had always been of the opinion that the sensation was like that of standing on the edge of a tall building. But it was not. It was delightful and if I ever have the chance, I intend to make another."

METHODIST PASTOR THREATENED BY LETTER

Considerable mystery shrouds the letter received by Rev. P. E. Petersen, pastor of the First Methodist church in which his life is alleged as having been threatened and in which he was alluded to as a "Dear Serpent." Rev. Petersen refuses to ties for investigation, stating that he intends to bring the matter before the members of the Good Government League at their next meeting.

The pastor refused to give out the contents of the letter, but stated that it bore the signature of a prominent person of this city.

Chief of Police Walker stated this afternoon that he was powerless to act in the matter as no report of the affair had as yet been made at his office.

JOHN STENMARK LAID TO FINAL RESTING PLACE

The funeral of John O. Stenmark, former keeper of Brother's Lighthouse off the Standard Oil docks at Point Orient, who died while en route to Blunt's Reef lightship stationed off the Mendocino coast was held this afternoon from the Smallwood undertaking parlors.

Funeral services over the veteran lighthouse keeper were performed by Rev. Guy A. White, pastor of the First Presbyterian church. The hearse was followed from the chapel to the grounds by a body of pallbearers selected from Eclipse Lodge of Odd Fellows of which the deceased was a member.

S. O. Employe Injured.

J. Volijat, an employe of the Standard Oil company, was injured yesterday when a barrel stave which he had stepped on flew up and struck his face. His injuries were treated at the Abbott emergency hospital.

MYSTERY SURROUNDS EDINGER'S DEATH

✠ ✠ ✠ ✠ ✠ ✠

POISON BOX IN ROOM HINTS AT SUICIDE

Mystery surrounds the death at Stockton on Tuesday night of F. S. Edinger, junior member of the contracting firm of Shattuck-Edinger company, builders of the big Richmond tunnel, which is almost completed. Edinger resides at 2409 Bowditch street, Berkeley, and was in Stockton on business when he was taken sick and his demise followed almost immediately.

The post-mortem examination revealed no organic troubles, nor were any traces of poison found. The stomach, however, was removed and its contents will be analyzed.

Suspicion was aroused by the presence of a small pill box in the dead man's room bearing the name of a Los Angeles druggist. According to the directions, the medicine was for external use and contained poison.

Coroner Warren telegraphed the druggist and learned that the prescription had been compounded for hay fever.

Edinger was a graduate of the University of California and a Native Son of California. He has been engaged in various construction enterprises in different parts of the state and was recognized as being a very able engineer by his associates.

CAPITALISTS SEEKING TO CONTROL

✠ ✠ ✠ ✠ ✠ ✠

GIANT POWDER BONE OF CONTENTION

Who owns the Giant Powder company, including its monster plant located at Giant a few miles north of this city?

All day yesterday President Geo. A. Moore and Directors Wayman and Hooper of the Giant Powder company sat at one end of a telegraph wire in San Francisco while First Vice President Louis F. Monteagle sat at the other end of the wire in New York in close confabulation with A. J. Moxham and his backers.

Hourly messages throbbed over the wires to and fro, but up to the close of business no definite result was announced.

Moxham, said to represent the Aetna Powder company, a new consolidation, is the man who started the disturbance a few weeks ago by offering 110 for every share of stock deposited with the First National Trust company, as was told at the time by the Record-Herald.

Then, as was told, Sutro & Co., representing unknown principles, began to collect the stock in large, juicy blocks, taking it on at 110 to 110¼ and paying cash therefor as against a long wait and the experting of the books and property under the Moxham escrow arrangement.

Sutro's backer is reputed to be the Atlas Powder Company.

President Moore said yesterday that Charles Sutro had claimed to him to have secured sufficient stock to control the Giant, but Sutro was more modest when asked about it.

It is generally believed that Moxham will abandon his attempt to secure the control of Giant. Certainly, any one who wants it will have to pay more than 110.

HAILES-YOUNG MARRIAGE IS CELEBRATED

A beautiful wedding was solemnized at the home of the bride last evening by Rev. D. W. Calfee, former pastor of the Wesley Methodist church, which united Miss Bessie Hailes, daughter of Mr. and Mrs. J. C. Hailes, of 1309 Barrett avenue, and J. Oliver Young, of Wellsville, Ohio.

The interior of the Hailes home had been prettily decorated for the event in bridal colors of pink and white, roses and carnations also being used to carry out the color scheme.

Promptly at 7:30 o'clock to the strains of "Lohengrin's" wedding march, rendered by Miss Mabel Irwin of Steubenville, Ohio, the bridal couple entered the parlor, taking their places before an altar of palms and ferns where Rev. D. W. Calfee united them in marriage.

The bride was charmingly gowned in white chiffon taffeta, trimmed with chiffon and pearls, and carrying a huge bouquet of white moss rose buds, lilies of the valley and orange blossoms. Miss Eva Hailes, sister of the bride and acting as bridesmaid, was gowned in white crepe de chine, carrying a large bouquet of pink roses on her arm. J. Oliver Young, the groom, and Harrold Garrard as best man were garbed in the conventional black.

Following the wedding the couple were tendered a wedding supper, leaving immediately afterwards in a shower of rice and good wishes for a honeymoon to be spent in the southern part of the state.

Returning Mr. and Mrs. Young will make their home with the bride's parents for several weeks until such time as they can secure a home of their own.

MAYFIELD GETS TWO YEARS IN SAN QUENTIN

Herbert R. Mayfield, who acted as lookout at the Standard Oil plant at Emeryville last September while Charles E. Sligh and Alfred E. Sells tied the watchman and robbed the safe has been sentenced to two years in San Quentin by Superior Judge E. N. Rector in Oakland, sitting for Superior Judge Ogden in department five.

Mayfield's plea for probation, despite the recommendations of Assistant Probation Officer Leonard Compton, the sworn testimony of former Chief of Police St. Clair Hodgkins as to Mayfield's former clean record and his assistance to the police in running down clues in the Sligh and Sells cases, and the favorable attitude of Assistant District Attorney Koford, was denied by Judge Rector.

CHAMBER OF DEPUTIES COMPLETE CAMPAIGN PLANS

PARIS, May 20.—The Austrian fleet has sailed from Pola and will bombard Venice as soon as Italy declares war, according to dispatches received here today from Milan.

PARIS, May 20, 3:50 p. m.—Reports from Rome say the Italian chamber of deputies by virtually an unanimous vote today granted full powers to the ministers of war.

ROME, May 20. — King Victor Emmanuel received the ministers of war and marine at the palace this afternoon. The conferences were regarded as most important in view of the possibility of an immediate declaration of war.

PARIS, May 20.—King Victor Emmanuel was busily engaged in preparing a manifesto today declaring war on Autsria was necessary to preserve national unity, according to the Correspoensia Italiania.

ROME, May 20.—Parliament reconvened today and Rome was aflame As the senators and deputies marched to the Parliament building to decide Italy's intervention in the war, they were followed by thousands of war-mad Italians, cheering lustily for King Victor Emmanuel and Premier Salandra and shouting "Down with Austria."

The premier introduced the bill conferring full power on the government amid cheers. A committee was appointed to pass on it.

The houses of Parliament were called to order promptly at 2 o'clock. Troops allowed only members and persons with special passes to enter.

Just before the deputies went into session interventionist members, who appeared at the windows, were wildly cheered by the thousands who were packed about the buildings.

Sitting in a most conspicuous place, surrounded by members of the war party, was Gabriele d'Annunzio. Professor Ferrero, the historian was seated nearby.

Following a private audience with King Victor Emmanuel, D'Anunzio said:

Entree to Parliament Guarded.

"Certainly King Victor Emmanuel is the right man in the right place —the king whom Italy needs in this supreme moment."

The utmost caution was used in distributing tickets of admission to Parliament, the officials seeking to avoid outbreaks among spectators in the galleries.

Hundreds of former members of Parliament clamored for admission to today's session, but were denied tickets. The only conspicuous absentee from today's session, however, was former Premier Giolitti, who has steadfastly maintained that Italy should remain neutral in the great conflict.

10,000 Troops Take Posts at Dawn.

Ten thousand troops were distributed about the city at dawn. The Parliament buildings were surrounded by soldiers with fixed bayonets and detachments of cavalry stationed nearby.

The guards about the Teutonic embassies were redoubled and every precaution was taken to prevent disorders.

When Premier Salandra went to the palace early for a conference with King Victor Emmanuel, he was cheered to the echo both on arriving and leaving.

FLAG DAY WILL BE OBSERVED BY ELKS

Flag Day exercises, held each year by Richmond lodge of Elks, will take place for the year of 1915 in the Hearst Greek theatre at Berkeley, on June 13th.

Among the speakers chosen thus far for the day's event are: Exalted Ruler Dr. C. L. Abbott and H. G. Biggs.

PREPARATIONS ARE READY FOR BIG BARBECUE

Constable J. E. Moitoza of San Pablo today supervised the work of slaughtering ten head of cattle for the monster barbecue which is to be one of the feature attractions at the Portuguese Holy Ghost festival which is to open on Saturday evening.

In conjunction with the barbecue a parade is to be held through the streets of the town following which the coronation of the queen is to take place.

MASCOT SALOON IS SOLD UNDER EXECUTION

Its license having expired two weeks ago, and the name of the place jeopardized considerably by a recent airing given it by the arrest of a young West Oakland girl on a charge of disturbing the peace, the fixtures and goods of the Mascot saloon, located at the corner of San Pablo and Potrero avenues will be disposed of at 10:00 o'clock on Saturday morning by Constable Davis to pay bills amounting to $231.00.

Robert McDunken and Robert Webb, owners of the saloon, according to Constable Davis, have not as yet applied to the board of supervisors for permission to re-open the place and it is thought that one of the most notoriously operated roadhouses on "Death Boulevard" is about to pass into oblivion.

So strong was the stench which come with the arrest of the young West Oakland girl that members of the Good Government league, together with private detectives, began working on the case.

Independent Democratic — Official Paper of City of Richmond

THAT NON-PARTISAN BILL

The Record-Herald is opposed to the so-called non-partisan law recently enacted by the Legislature and awaiting the governor's signature. It is supposed to do away with all party lines in the state and creates a political jumble which is intended to foster personal machine rule in all governmental affairs. It may be asserted that party rule is but machine rule and this is in a measure true, but we submit that party machine rule, which is made up largely by a collection of individuals, is better and more representative than personal machine rule, which is nothing more or less than bossism.

The San Francisco Chronicle is opposed to the non-partisan law and although the Chronicle is a Republican paper, we heartily agree with its views in the matter. Here is what the Chronicle has to say on the subject editorially:

"The so-called 'non-partisan' bill will become a law of this State ninety days after it is signed by the Governor, unless held up by a referendum petition.

"All who continue to have confidence in the representative government established by our forefathers should actively assist their respective political committees in securing signatures to the referendum petition.

"This ought to be accomplished by a spontaneous uprising of the people, without costing one cent, except the necessary printing. It is a case in which the virility of a real democracy should assert itself.

"To defeat that law by an overwhelming majority will be a triumph of representative over personal government.

"For if we are not governed by parties responsible to the people we shall be governed by persons who will ignore the people.

"In the State as well as in the Nation, there will be conflict between those who are dominated by reason and those who are dominated by emotion; between those of wide outlook, learned in the lessons of history, and those of narrow outlook, who see only what is immediately about them or, still worse, what they vaguely imagine.

"And, whether for national or State purposes, it is best that all, according to their convictions, unite for promoting the triumph of their policies both in State and national affairs.

"If one chooses to call political organizations political machines, it is still far better for the State, for the Republic and for humanity that we be governed by party machines rather than by personal machines.

"Party organizations must study the popular feeling. The strong man on horseback ignores the popular feeling.

"Will any one pretend that there is any popular demand for the enactment of this non-partisan law? Will any one deny that it is a device of a single mind for the accomplishment of personal ends. Or that his only expectation of passing it at a popular election is confidence in his ability to dominate the action of his followers? Or that he compelled an immediate election at whatever cost, in the fear that a year hence his personal power will have waned?

"There can be no strong national party which is not also strong in the states, and strong in the affairs of the State as well as in the affairs of the Nation.

"And the real object of this law is even more to emasculate parties as national parties than to maintain personal power in the State."

Having elected a woman mayor, Warren, Ill., isn't very well satisfied with her. Which is further evidence that the people don't like their own way very well when they get it.

Nobody defends municipal extravagance, but it is not surprising that a candidate for mayor of Baltimore who said, if elected, he wouldn't spend a cent for public improvements should have been overwhelmingly defeated.

Chairman Walsh, of the industrial commission, resides on easy street with a fat government job, and his efforts to look like a martyr don't go very far in this direction.

Outside of the military and civil service, a government job is about as uncertain as politics, and that is a rule which hasn't enough exceptions to make anybody feel safe.

The land at the head of Wall street, on which Trinity church and cemetery stand, comprises a plot 391 feet long by 227 feet broad, valued at $17,000,000.

General Kitchener said war was to begin about May 1, but the May offering up to date doesn't seem to differ greatly from the earlier preliminaries.

Dr. Eliot declares that to possess a million dollars is a misfortune. No it isn't; misfortune comes to all.

Europe is so busy, however, that maintaining the Monroe Doctrine in good working order is a fairly simple process.

A Kansas editor thinks the polecat is about the only being that can remain neutral and please both sides.

At that, English working men are not the only people on earth who prefer boozing to laboring—we have some right here.

That labor strike at the biggest British arsenal doesn't make a noise like patriotism of the masses.

Glad to know that the Carnegie Peace Union is still giving prizes for essays on the cessation of war.

Cheer up, things might always be worse. S'pose Billy Sunday should hear a call to butt into politics?

Neither side seems too busy fighting to think up and impose new restrictions on our shipping.

If practice counts for anything, Justice Hughes could make a living sawing wood, if he had to.

MAY 20.

General Alexander Von Kluck, of the German army, whose masterful retreat from the advance on Paris made him famous, is 69 years old today. Although he has many times been reported dead from wounds, a report received within a few weeks states he has recovered. Von Kluck suffered similar wounds when he served in the ranks against France in 1870. He was twice seriously wounded before Metz, and his notable bravery at that time gained the Iron Cross from the old Kaiser.

Von Kluck was chosen from among many able generals to lead the advance on Paris, when the great European War broke out last fall. Although he failed to accomplish the task of taking the French city, he retreated with honor, striking when he could, falling back cleverly, and all the while preparing to face the Allies at the Aisne River.

Von Kluck's greatest service to the Kaiser has been in the military schools. He seemed especially fitted for the work of drilling officers. Von Kluck is a type of the German military leader, and his commands have had full confidence in his leadership. But the failure of the drive on Paris cast him into ill-favor, and he has suffered the lot of other leaders in the present war who failed to achieve the impossible.

Here's a Richmond fact.
You can test it.

"My back pained me so at night that I had to walk the floor," says Mrs. Ethel C. Powers, of 240 Third St., Richmond. "I had blinding dizzy spells and headaches in the back and top of my head. Circles appeared under my eyes and I had no appetite whatever. In less than two weeks I fell off in weight from one hundred and thirty-six pounds to one hundred and eleven. A doctor said I had Bright's disease. It was at this time that I began using Doan's Kidney Pills. The kidney secretions became natural and I had no more pains across my back. I regained all my lost weight. Four boxes of Doan's Kidney Pills accomplished this wonderful cure."

WOMEN WHO ARE IN THE NEWS

Boston—That more than thirty women have served as Mayor of cities is the declaration of Alice Stone Blackwell, the suffragist leader, who takes exception to the reports that an Illinois woman recently elected is the second woman to serve in this high office. "Generally speaking," continues Miss Blackwell, "they have served so quietly, smoothly and successfully that nothing about them has got into the papers outside their own states. A long series of women have been chosen mayors in Kansas in the smaller cities. Occasionally a full city government of women has been elected. Several women mayors have served in Oregon and other far western states. Since the British Parliament, in 1907, made women eligible, many women have been elected councillors, three have been chosen mayors and one in Scotland, Lord Provost. Mrs. Lee, Mayor of Oldham, England, is so much beloved in her city that when a street car strike occurred she succeeded in bringing about a settlement, and conducted the first car through the city herself."

Seattle—Threatened with deportation, which means suicide in her own country, and asking only the right to live, Ah Fak, a comely Chinese woman of 26, recently sought police protection here. She came to Seattle ten years ago and married Eng Yan a Chinese merchant, in Chinese custom. Her martial troubles brought about a separation, and her husband has offered a reward for information as to her whereabouts and declaring she is a subject of deportation. The Chinese custom would oblige her to end her own life, should she be deported, she said, for a discarded wife is without social standing in the Orient.

St. Louis—Mrs. Minna Mollman, of East St. Louis, has the unique distinction as the "Mother of Mayors." Two of her sons were elevated to be chief executives in the April elections. Fred W. is now mayor of East St. Louis and his brother, Julius, is mayor of Mascoutah, Ill. Mrs. Mollman, who is 73 years old, is proud of her boys. She says they have never forgotten her, and have been more devoted to their families than to politics.

Brooklyn — Society women of Brooklyn will stage tomorrow and Saturday the Brooklyn Historical Pageant, the biggest show of the kind that the Burrough has ever seen. Events since the first settlement here 300 years ago will be portrayed by the society women in a dozen episodes of spectacular beauty. Mrs. August Dreyer is head of the pageant committee. The schools, military and civic organizations have joined with the society women in the presentation.

Salem, Oregon—The remarkable political career of Miss Fern Hobbs, who, as secretary of former Governor Oswald West, put the saloons of Copperfield, a wild border town, out of business, and became nationally famous, will be brought to a close, at least temporarily, tomorrow, when she retires as a member of the state industrial accident commission. She offered her resignation if the legislature did not amend the women's compensation act, and when the amendments failed, held true to her word. She sacrifices a $3,600 position for a principle.

Vienna, Austria—Countess Stephane, the second daughter of the late King Leopold of Belgium, who will reach her 51st birthday tomorrow, is among the most active of the royal Red Cross nurses in Europe. She is drowning the sorrows of tragedy and royal edicts in her present work. Her home is on the Austrian frontier at the Castle of Orosvar. When a young girl a marriage was arranged for her with Rudolph, the Crown Prince of Austria. Rudolph's habits and character were the gossip of Europe. Princess Stephane was exceedingly beautiful, but proud and headstrong, and little inclined to bear with patience the scandalous conduct of Rudolph. The union lasted for eight years and a daughter was born. Then came the tragedy of the Crown Prince's death. Shortly afterward the Princess fell in love with a Hungarian nobleman, Count Lonyay, and she married him despite the resentment of King Leopold and the Emperor Francis Joseph. Her father would not permit her to her mother's funeral. She has not been at court since the wedding of her daughter, Princess Elizabeth, in 1902. She was reduced in rank, and has found her present station difficult to endure. She further aroused the wrath of her father by inventing a chafing dish and putting it successfully on the market. But she demonstrated that she possesses her father's rare business ability.

SOUTHERN PACIFIC ISSUES BOOKLET FOR CAMPERS

For the mountain lover, the adventurous explorer and the sportsman, the heart of the Sierra holds nothing more attractive than the great gorge of the Kings River and the Kern River Canyon in California. The Southern Pacific Company has had printed for free distribution to 1915 tourists an attractive booklet describing the region under the title of "Kings and Kern Rivers Canyons."

Kings River Canyon is on the south fork of the Kings River and has been called by John Muir "a second Yosemite." Above the headwaters of the river is Mt. Whitney, the highest mountain in the United States, excepting Alaska.

The Kern River Canyon is a cleft, running north and south, for thirty miles, through which the mountain stream makes it turbulent way.

Both districts are excellent fishing and hunting grounds, untroubled except by a few adventurous sportsmen. They abound in mountain meadows that were once glacial lakes. With the streams and lakes and the open park-like giant forest trees, this region is delightful for the man or woman who really loves the wild side of nature. General Grant National Park is also located here. Hotel and camp accommodations are ample and moderate priced.

The trip is made over the Southern Pacific to either Visalia or Sanger, in the first instance, the journey being continued by the Visalia Electric Railway to Lemon Cove and thence to Juanita Meadows by auto stage, and in the latter case directly by auto stage from Sanger.

An outing in these canyons is ideal for the traveler who wants to really see America First.

POISON PEN CHARGES AGAINST A PREACHER

DETROIT, Mich., May 20—Before concluding the diocesan convention today the Episcopalians will hear the appeal of the congregation of Trinity Church, St. Clair, Mich., for a canonical trial for Rev. F. S. Devona on the sensational charges that the pastor wrote "poison pen letters." The charges were made by Dr. James W. Inches, and Rev. Mr. Devona was removed.

POPULAR MATRON ENTERTAINS FRIENDS

Mrs. L. Fulton entertained a party of friends at her home at 231 Fifteenth street yesterday afternoon. A musical program took up the day's affair at the conclusion of which refreshments were served.

Those present at the party were: Mrs. Anna Horner, Mrs. M. L. Stoddard, Mrs. Martha Woodworth, Mrs. Lulu Roe, Mrs. E. F. Keyes of Wamega, Kansas, Miss Fanny Fulton of Oakland, Mrs. L. Fulton and Mrs. J. C. Davis.

AN INHUMAN MOTHER POISONS HER DAUGHTER

MUSKEGON, Mich., May 20.—When Mrs. Martha Steele, the stepmother accused of strangling her 11-year-old stepdaughter, Evalina Mary Steele, steps to the bar of justice here, a terrible tale of jealousy will be unfolded, with horrible details of a deed that parallels the morbid dear play "Princess Maleine" by the Belgian author, Maurice Maeterlinck. The trial may be reached today in the circuit court.

Mrs. Steele, who is 30 years of age, and the wife of Albert Steele of Muskegon, has confessed that on April 21 she poisoned little Evalina by pouring muriatic acid down the child's throat after first tying the child's hands together and blindfolding her. The officials declare, however, that the girl came to her death by strangulation. Like the play of Materlinck, the motive of the terrible deed is a step-mother's jealousy, and in both the step-mother strangles the child which is slowly dying of poison.

The authorities will endeavor to prove that Mrs. Steele, after watching the child die, buried her under some boards in the shed at the rear of the Steele home, and the next morning exhumed the nude corpse and carried it to an alley 90 feet from the house. Mrs. Steele is alleged to have confessed that she had poisoned the girl, but at the girl's request. When arraigned on April 27th, she pleaded not guilty. She was hissed by women in the courtroom, and seemed to have no friend in the world.

TORTURE HOLES ARE EXHIBITED IN OAKLAND

The corner cells on either side of the lower deck of the old British convict ship, "Success," on exhibition at the Webster street bridge, Oakland, are the dreaded "black holes," in which prisoners, who had been guilty of some breach of discipline or fractious conduct, were punished by solitary confinement lasting from one to one hundred days according to the gravity of the offense, and, perhaps, according to the state of the gastric juices of the Inspector-General in charge. These small and tapering torture chambers measure only two feet, eight inches across. The doors fit as tight as valves and close with a "swish," excluding all air except what can filter through the perforated iron plate that was placed over the bars above the door, in order to make a hole as dark and oppressive as possible. A stout iron ring is fastened about knee high in the shelving back of the sell and through this ring the right wrist of the prisoner was passed, and then handcuffed to the left hand, the consequence being that he was thus prevented from standing upright or lying down, but was obliged to stoop or lean against the shelving side of the vessel as it rocked to and fro at its moorings.

Large crowds are flocking across the gangplank leading to the "Success," which is open daily from ten o'clock in the morning until ten at night.

If practice counts for anything, Justice Hughes could make a living sawing wood, if he had to.

PRESBYTERIANS HOLDING A BIG CONVENTION

ROCHESTER, N. Y., May 20.—Many matters of national importance in the Presbyterian church are up for settlement at the 127th general assembly of the church, which opened here this morning. Nearly 900 commissioners of the church from every section of the country are present. The assembly convened this morning, with Rev. Dr. Maitland Alexander of Pittsburg, the retiring moderator, in the chair. After religious services this morning, organization for the coming year will be effected. Aside from the regular assembly meetings, popular meetings will be held, at which famous speakers will be heard.

One of the features of the convention is the call issued by Dr. Alexander and others prominent in the church for a getting back to fundamentals and the emphasizing of the integrity and authority of the Bible. It is expected that the dispute between the assembly and the Union Theological Seminary of New York will be settled at this session and the status of the seminary definitely fixed. A committee has prepared a statement of facts in the controversy. The assembly will also be asked to settle the status of Rev. Percival H. Barker of Newark, who was twice tried in Kansas on the charge of falsehood. A new board of education will be suggested to the assembly.

During the year ending March 31, $2,287,076 was contributed for foreign missions. The mission board consists of 4,512 workers, maintaining 809 organized churches and aiding many others.

RICHMOND CORPORATION ENTERS FIELD OF TITLE INSURANCE.

Contra Costa realty transfers are to be safe-guarded against possible financial loss through fraud or defective title by legal reserve Title Insurance Policies guaranteed by the Insurance Department of the State of California.

$100,000.00 legal reserve is deposited with the State Insurance Commissioner assuring complete protection for every Title Insurance Policy delivered by the **RICHMOND ABSTRACT & TITLE CO., Inc.**, who are financed to provide this guarantee on all Unlimited Certificates of Title issued by them in the San Pablo Rancho.

Title Insurance is the most recent efficiency development in the Abstracting Business. It is comprehensive in its benefits, insuring against forged documents and all possible defects of title.

The following local case in point will interest every property owner:

Suit to foreclose on a mortgage and two notes, one for $150 and the other for $100, the first of which appears on the records of the County to have been satisfied a year ago, has been filed in the Superior Court by J. R. Mitchell, former Mayor of Woodland against Henry McNeil, Hudson Grant, as administrator of the estate of Mary McNeil, A. J. Bradford, Anna B. Cutchin, Anna M. Gaylord and Fred L. Bice.

The satisfaction of the mortgage was recorded on February 10, 1914 and is signed by J. R. Mitchell, while the name of Charles Edelman, a notary of San Francisco is attached to the oath. Mitchell's attorney Beryl Gregg who filed the suit, asserts that the satisfaction is a forgery.

Some time ago the McNeil estate sued Anna M. Cutchin and A. J. Bradford for cancellation of a deed and to quiet title, claiming that the name of the late Mary E. McNeil who died July 26, 1914, was forged and that Bradford who derived his title by deed from Anna Cutchin has no claim to the property which lies in Richmond.

Mitchell, it is said, sought to foreclose on the notes and when his attorney had the records in Martinez searched he discovered that a satisfaction had been recorded and that from the records as they now stand a foreclosure suit would be out of order.

Had J. R. Mitchell insured his title for $1000.00 by purchasing a Title Insurance Policy for that amount at a cost of $25.00, he would not have been compelled to endure the uncertainty, worry and expense of recovering the money that he had originally loaned upon the property.

Our company would have paid the money to Mr. Mitchell ten days after receiving notice of his loss, if he had carried a Title Insurance Policy.

Probabilities now are that Attorney's fees in attempting to collect the principal will cost all of the money originally loaned by Mr. Mitchell.

A Title Insurance Policy covers every possible contingency of fraud or loss through clouded title. Its protection is absolute.

Abstract companies are not responsible for forged documents.

No person can see far enough ahead to know when a forged deed or other instrument may appear in the chain of title of a piece of property that he or she may be purchasing.

The **RICHMOND ABSTRACT & TITLE CO.**, Inc., is engaged in their specialized phase of business, that being the examination of titles to real property and the guaranteeing of the accuracy or sufficiency of that examination. Its attorneys and examiners are trained experts along title lines. It has invested thousands of dollars in the preparation of its plant and other facilities in order that its experts may have before them the entire record in condensed and accurate form.

Specially constructed fireproof vaults have been installed to protect all papers and records, in the company's own brick building, which is at Twenty-second and Macdonald avenue.

The completely detailed system for keeping all property transfers promptly posted to date for ready reference, enables the office staff to transact a large volume of business with promptness and accuracy, giving reliable service to its clients.

JULIUS STEGER AT THE RICHMOND THEATER

Every father and every mother as well as every son and daughter should see Julius Steger in the great play, "The Fifth Commandment" which is playing at the Richmond theatre for the last times thi sevening. In this filming of the great Broadway success of last season, Steger has a world of opportunity to indicate his great forte as a romantic actor. The supporting company is splendid and it is said by those who have been to both the talking and the filming of the drama that the motion picture has greatly improved the story.

Charles Chaplin in a big scream, "Mable's Strange Predicament" and Rose Tapley in her three-reel success, "The Day of Light" in which Miss Tapley brings home to us here in the west the terrible poverty and crudity of life in America's largest city, round out a great program.

"Help Wanted" the immense Morosco success, will be tomorrow's headliner.

MESSIAH'S KINGDOM.

Glorious Day of Divine Favor Near.

The period in which sin is permitted has been a dark night to humanity, never to be forgotten; but the glorious day of righteousness and divine favor is soon to be ushered in by Messiah. He, as the Sun of Righteousness, shall arise and shine fully and clearly into and upon all, bringing healing and blessing, which will more than counterbalance the dreadful night of weeping, sighing, pain, sickness and death, in which the groaning creation has been so long. "Weeping may endure for a night, but joy cometh in the Morning."

OAKLAND TESTS MENTALITY OF STUDENTS

Experts of the Oakland school department have figured out the hours at which a school child's mind is at its best, and have so arranged the curriculum that the most difficult studies are taken up at the time the mental activity is at its highest. This is why, in all Oakland schools, mathematics is taught during the first hour of the day.

Mrs. Vinnie C. Hicks, head of the Child Study Laboratory of the Oakland school department, has, by a series of exhaustive tests, discovered that the child mind is most active from 9 to 10 in the morning, and is at its dullest between 11 o'clock and noon, with the second best time from 2 to 3 p. m.

"The reason the child is dullest between 11 o'clock and noon is not because of fatigue or any similar cause," says Mrs. Hicks, "it is because the child, being hungry, his mind is distracted from his work. The mentality is no less keen, but it is bothered by the constantly recurring thought of the coming luncheon and the attendant recess hour.

"My department spends much time studying just such points as this, and as a result, the Oakland schools are arranging the studies of the children to conform with what we have found to be the best time for the various courses. Mathematics being the hardest of all for the child mind to master, it is placed first on the day's work, and we have found that the change is fully justified by the results."

FOREST FIRE PROTECTION EXHIBIT AT EXPOSITION

With the approach of the forest fire season in the West, the fire protection exhibit of the United States Forest Service at the Panama-Pacific Exposition is arousing renewed interest. The display graphically shows in detail the measures being taken by the Government to insure the early detection and efficient fighting of forest fires. This is the most important portion of the entire Forest Service exhibit.

In the center of the space is a large model, measuring 12x15 feet, showing a ranger district on a National Forest. A lookout house and a lookout tower occupy the two highest peaks. These are connected by telephone with a ranger station which in turn is connected with various users of the Forest at a ranch house, a hotel, and a power-house. The model shows Government roads, trails and bridges, constructed primarily for the purpose of making every part of the Forest accessible to fire-fighters. Fire-fighting equipment boxes are placed at strategic points along trails and roads, and a fire line kept clear of inflammable material runs along one of the mountain ridges.

To one side of the large center model a full-size fire lookout house, fully equipped for discovering and locating forest fires, is built on an imitation of a great boulder on a mountain top. The house is painted white to serve as a conspicuous target for heliograph messages directed toward it by patrolmen. The building contains binoculars through which a distant forest fire is seen; a fire-finder, by the aid of which the Supervisor's office can be informed definitely of the location of a fire; and a special type of telephone in communication with the Supervisor's office. There are also on display in this tower a portable telephone and a portable heliograph outfit for use by patrolmen. A pair of stereopticon machines are concealed within the imitation rock on which the house rests and throw pictures and descriptions on screens built into the rock, which tell the entire story of the fire protection work.

On a redwood tree trunk in another part of the exhibit is displayed a weatherproof iron box telephone, such as is placed along patrol routes in the Forests. This telephone is connected with the telephone in the lookout and with a Supervisor's telephone at the desk of the demonstrator by slack lines attached to tree trunks on swinging insulators, just as the line is installed in a National Forest. This manner of construction enables the line to stand the stress of the elements through the winter and prevents the wire being broken when a tree falls.

The latest type of fire-fighting tool box, equipped with shovels, rakes, hoes, axes, canvas waterbags and buckets, canteens, lanterns for fighting fires at night, torches for setting back fires, nesting cooking utensils, and emergency rations, occupies a place near the lookout house.

Beside the desk of the demonstrator, who plays the part of the National Forest Supervisor, is hung a master fire map of a Forest, similar to the one in the lookout house. On this map is shown the location of every train, bridge, road, telephone line, telephone station, ranger station, fire-fighting tool box and lookout station. At the locations of the lookout points are protractors oriented to correspond with the protractions at those stations. This map enables the Supervisor to locate a fire directly from the reports of the lookouts without any mathematical calculations, and to place to the best possible advantage the force of men available for fire fighting.

Fire warning posters and rules concerning care with fire in the Forests are posted upon tree trunks and in other conspicuous places through the exhibit as they are in the Forests.

HERB DOCTOR MAKES SPECIAL OFFER TO DISCOURAGED SUFFERERS

MANY HAVE BEEN CURED BY THESE WONDERFUL HERBS.

To convince the most doubtful, we will give to any one mentioning this announcement, a seven days' treatment of herbs at half price. At the end of this trial you will be able to judge for yourself just how efficient this herb treatment is. We have letters of thanks for cures on almost every known disease. These letters from local and out-of-town sufferers are open for your inspection at our office.

Dear Doctors Chan and Kong:

I wish to write and add my testimonial to the many you have already received. When you diagnosed my case of rheumatism correctly by merely feeling my pulse I was indeed surprised, but the remarkable results which followed your treatment were even more surprising, as I had been treating with other doctors without relief, and they all said it would take five years to cure me, if it could be done at all.

Being a self-supporting widow I was heartsick, as I saw no hope ahead. The day I came to see you at the urgent request of a friend who knew of your good work, I had to go out and buy a large pair of shoes, as my feet were so swollen from rheumatism that I could not walk in ordinary shoes.

After six days of your herb treatment I had no swelling, and a day or two later I walked nine blocks with no trouble, and the swelling did not return. I never before had any hope that I would be cured, as I believed what other doctors told me, so you may imagine my delight, at having my rheumatism cured. I remain

Yours very truly,
(Signed) MRS. E. ALLARD,

Whirlpool SANITARY DISHWASHER

SEE WHAT SCIENCE HAS DONE FOR ME

after 3000 years of kitchen drudgery. The much-needed rest of the Housewife has at last arrived. The invention of the

Whirlpool Sanitary Dish-Washer

saves health, time and nerves and preserves hands and complexion. At last

Woman's Emancipation

is here. A delight and an indispensable aid to those who have already used them. Just six minutes to clean, polish and dry the china, glassware and silver of a dinner for eight people.

No contact with hot water, steam or hot soapy suds. Self-cleansing, sanitary, no pump used. Small in size, easily lifted and carried. Strongly built of stamped metal.

Can be purchased on easy payments. Write for our plan.

Sent prepaid, returnable at our expense within ten days, if not exactly as represented.

It has a capacity sufficient to wash at one time all the dishes of the average family, yet is so light and portable that it can be easily moved from place to place.

The movement of the handle forward and backward revolves the propeller in the bottom of the washer, which dashes the hot soapy water with a swirling effect around, through and over all the dishes, forcibly attacking them at all points, and cleansing them with absolute perfection on all sides. The dishes are completely washed in less than one minute's time and the washer works so easily that a child can operate it.

Turning down the small lever at the top of the washer, opens drain valve and discharges the water in a few seconds. The dishes are then rinsed and sterilized by pouring a dishpan of clear boiling water through the lid and turning the handle about thirty seconds. The rinsing operation automatically cleans the washer itself, which always remains in an absolutely sanitary condition.

Beautifully illustrated booklet showing every phase of the Whirlpool Sanitary Dishwasher sent on request.

Thousands are being sold by leading stores in Philadelphia, New York, Chicago, St. Louis and other large cities. The Whirlpool enjoys a monopoly of the market, and furnishes agents the best opportunities for quick money making available anywhere.

SEX HYGIENE IS BEING TAUGHT AT FAIR

Well attended conferences at which intelligent mothers and fathers are being advised individually how to teach their own children the facts of sex are being held every Monday 3 to 5 P. M. in connection with the exhibit of the American Social Hygiene Association in the Education Building at the Panama-Pacific International Exposition.

The following physicians and educators are co-operating in the work:

Dr. Adelaide Brown of the State Board of Health; Dr. William F. Lucas, Dr. Robert C. Moody and Prof. C. E. Rugh of the University of California; Dr. Ruby Cunningham, Prof. C. W. Fender of Lowell High School, Mr. and Mrs. C. N. White of the California Social Hygiene Society, Dr. Herbert F. Stoltz of the Stanford University, and Dr. Romilda Paroni of the University of California. The last two will advise parents of boys and parents of girls, respectively.

The conferences are being held in the private room of the Federal Children's Bureau Exhibit, by courtesy of Miss Julia Lathrop. Special appointments at other times and places may be secured on request.

The Association believes that parents are the proper ones to teach these delicate subjects, and that children will get wrong ideas if not properly taught at first.

The conferences are showing that even the best parents are frequently very uninformed or misinformed on these subjects and welcome competent and conservative advice.

NOTICE OF COMMISSIONER'S SALE ON FORECLOSURE OF MORTGAGE.

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF CONTRA COSTA.

SOPHIE PEARD CURTIN, Plaintiff,
vs.
CHARLES OLLIVER CLAUSEN et al., Defendants.
No. 6002 Dept. 2

Under and by virtue of an order of sale and decree of foreclosure issued out of the Superior Court of the State of California, in and for the County of Contra Costa, on the thirteenth day of April, A. D. 1915, in the above-entitled action, wherein Sophie Peard Curtin, the above-named plaintiff, obtained a judgment and decree of foreclosure against Charles Olliver Clausen, defendant, on the said 13th day of April, A. D. 1915, which said decree was, on the said 13th day of April, 1915, recorded in the office of the Clerk of said Court in Judgment book 14 of said Court, at page 347, for the sum of $1122.68 gold coin of the United States, together with interest thereon at the rate of seven per cent per annum from the date of said judgment and accruing costs.

I, Clare D. Horner, a commissioner appointed by said Court to execute said judgment, am commanded to sell all that certain lot, piece and parcel of land situate lying and being in the City of Richmond, County of Contra Costa, State of California, and described as follows, to wit:

Lot number Twenty-four (24), in Block number seven (7), as the same is more fully designed and delineated upon a certain map known as Map of West Richmond Tract, which map is now on file in the Office of the County Recorder of the County of Contra Costa, State of California, to which reference is hereby made for a more complete description of said Lot, the said Tract being a portion of Lots Numbers 86, 87 and 88 of the final Partition of the San Pablo Rancho, Contra Costa County, State of California, together with all and singular the tenements, hereditaments and appurtenances thereunto belonging or in any wise appertaining.

Notice is hereby given that on Tuesday, the 25th day of May, 1915, at 10 o'clock a. m. of that day at the Main Entrance to the Court House, in the town of Martinez, County of Contra Costa, State of California, I will, in obedience to said order of sale, sell the above-described property, together with its appurtenances, or so much thereof as may be necessary to satisfy said judgment, with interest thereon and costs to the highest and best bidder for cash, in gold coin of the United States.

Dated May 3rd, 1915.

CLARE D. HORNER,
Commissioner Appointed by Said Superior Court.

ELIZABETH MURRAY THE TOPLINER AT ORPHEUM

Delightful froth of the clever kind—a beautiful blend of really splendid vaudeville is giving the crowds at the Oakland Orpheum this week a big treat. People seem never to tire of fluffy fun and sweet music with pretty girls as an added attraction and those are the ingredients that make up a delightful potpourri at the Oakland Orpheum.

The crowds give Elizabeth Murray a big reception at each performance, and the little comedienne well deserves it. Everybody has heard of Elizabeth Murray by reason of her success in "Madame Sherry" and "High Jinks," which big plays she carried along on a top wave of prosperity and now that she is in vaudeville it is easy to see the reason for her victory. She has personality plus winsome ways, corking songs and the knack of getting the last ounce of value out of every one of them.

When Harry Cooper walks out in the uniform of a mail carrier, wearing the stage type of Hebrew whiskers and with a line of comedy chatter that fairly bubbles with fun, everybody knows what is about to happen—Cooper is going to capture the audience. He does. When he raises his beautiful tenor voice in song the thing is cinched. He is one of the big hits of the show.

When it comes to novelty dancers of the unique sort, the Four Amaranths certainly are entitled to a Panama Fair medal. This quartette of European dancers surely are the last work in grace and beauty and acrobatic skill with dancing finesse.

Marie Annis is a beautiful girl with a beautiful voice and Walter Shannon is a comedy youth who sings with her in a unique feature called "A Shine Flirtation." Just where the "shine" comes in one should find out for himself. It is a little secret worth knowing.

Mr. and Mrs. Gordon Wilde begin the bill with some remarkable shadowgraph work that has a bright dash of comedy to it and which gives the show a splendid start. Ellen Orr and Harry De Costa provide some melodies of the entrancing sort.

One of the great hits of the bill is naturally made by Homer B. Mason and Marguerite Keeler. These stars have returned by request for a week's engagement in Porter Emerson Browne's delightful farce, "Married." It is a gem among comedies and is superbly played by Mr. Mason and Miss Keeler.

LOSS OF HAIR THE REASON
Dandruff, sluggish circulation of the blood through the scalp, impaired vitality of the hair follicles—these cause the death of hair.
Dandruff indicates a diseased scalp and a diseased scalp cannot properly nourish the hair. When the hair fails to get proper nourishment it dies and falls out.
Our hair tonic removes dandruff, stimulates the scalp, strengthens the vitality of the hair roots, causing a more healthy growth.
Our hair tonic will stop falling hair. It is not claimed that it will cure baldness, but it is used by people with thin and straggling locks, as well as by those whose hair is abundant, long and luxuriant. It is decidedly a toilet necessity, not a luxury. If you value your hair you will appreciate our hair tonic. Price 50¢.

RECLAMATION BOARD TO SIT AS EQUALIZER

The State Reclamation Board will sit as a Board of Equalization in Antioch on May 24, 1915, to hear any protests on the part of land owners of Contra Costa county against Assessment Number One of the Sacramento and San Joaquin Drainage District.

The total amount of the assessment is $250,000, of which $7860.43 is assessed to lands in Contra Costa county. Only sixty per cent of the assessment is to be collected at this time. The assessment roll is now open for public inspection in the office of the county treasurer.

Assessment Number One is to meet administrative and overhead expenses of the Reclamation Board in connection with the subject of flood control for the Sacramento and San Joaquin Valleys, the state insisting that, because of the benefits to reclamation involved, the benefitted land shall meet this expense, as well as the cost of completing units of the projects outside of the navigable streams.

As to the Sacramento River flood control project, the only plan economically feasible to preserve the navigability of the Sacramento River and afford permanent protection from flood to the lands and communities of the Sacramento Valley and the lower part of the San Joaquin, the State and Nation jointly are to meet the expense involved in opening the river's mouth and constructing the by-pass weirs— about $12,000,000. This plan was formulated under the direction of Congress by Government Engineers and has been formally adopted by the State of California. The Reclamation Board was created to carry out the State's portion of the work.

Assessment Number One, like all preliminary assessments in reclamation districts, is based on a flat rate per acre on the farm lands benefitted, the rate being, for most of the lands in the Sacramento Valley and in the northern part of the San Joaquin, a fraction over sixteen cents per acre, while in the Southern part of the San Joaquin the rate is only one-third as great. In towns and cities the assessment is levied ad valorem on the value of the real estate alone, the rate as compared with that on Sacramento Valley farm lands, being considerably greater, on the acreage basis, running as high, in the case of Sacramento City, as twenty times as much.

Recognizing the great importance of the work to the development of the State, the Legislature passed several bills now in the Governor's hands for approval, enlarging the powers of the Reclamation Board and enabling it to expedite the project now under way. This project it is declared means more to California in wealth, commerce, production and population than any other project now in progress or contemplated. The laws have been so framed, too, that land though included in the district, shall not be assessed unless benefitted; and future assessments for construction work must be levied only on lands benefitted thereby and in proportion to benefits received.

WOOD PRESERVATION INDUSTRY IS GROWING

Owing to a falling off since August 1 of nearly 30 per cent in shipments of creosote from England and Germany, whence comes all but a small part of the imported oil used by wood preserving plants in this country, American manufacturers have taken steps which, says a report compiled by the forest service, it is estimated will increase production of the domestic article by about 25 per cent. The imported oil ordinarily forms about 65 per cent of the total used in the United States, where creosote is the most important wood preservative.

The statistics gathered show that wood preserving is one of the most rapidly advancing industries in the country. In 1895 there were fifteen plants in the United States; in 1914 there were 122 plants of all kinds, 100 being of the pressure cylinder type. Ninety-four of these plants last year used more than 79 million gallons of creosote oil, more than 27 million pounds of dry zinc chloride, and nearly 2 1-2 million gallons of other preservatives, such as coal tar and crude oil, treating a total of nearly 160 millon cubic feet of timber; an increase of about 7 million cubic feet over 1913, and of 35 million cubic feet over 1912.

The most important consumers are the large plants in which railroad ties are treated. The preservatives materially lengthen the ties' period of service, lessen the labor cost involved by renewal, and decreases the drain upon the forests due to tie-cutting. To some extent the treatment of fence posts and other forms of farm timber is being taken uu, an inexpensive apparatus and method having been devised by the department of agriculture; but as yet the use of wood preservatives by farmers is on too small a scale to have any importance in the total, while the practice of treating telephone poles is in its incipiency in this country.

"With the rapid advance of this industry as a whole," says a report, "the choice of preservatives has been fairly well established, but the kinds and classes of materials to be treated need development along certain lines. In Germany and other European countries practically all cross-ties laid by the railroads are treated with chemicals or preserving oils. In this country but 30 per cent of the ties purchased by the railroads are subjected to such treatment. The number of poles treated in this country is a very small per cent of the total in use.'

"JIM HAD SET HIS HEART ON A NEW GRAY SUIT"

"Yesterday He Found He Could Buy It—ON CHERRY'S CREDIT TERMS

"So up to CHERRY'S he went this morning and bought a 'ripping' English model. Just the shade of gray he fancied, splendidly styled, handsomely tailored—an all-'round beauty of a Suit. Its price startled me—IT COST SO LITTLE — and when you get a glimpse of Jim at dinner tonight you won't wonder I thought his Suit was expensive.

"Well, he really paid just a trifling fraction of the price yesterday, too. A fellow can do that way up at CHERRY'S—make a small first payment and fix up INSTALLMENT TERMS for the rest. If you've any idea how popular CHERRY'S STORE is with San Francisco men, you know that CHERRY'S system is a sure winner.

BAPTIST DAY AT EXPOSITION JUNE 1ST

Rev. S. K. Skinner, pastor of the First Baptist church, and Rev. Wilson, pastor of the Calvary Baptist church of this city, together with the deacons and members of their congregations will combine at a meeting to be held in the near future for the purpose of completing arrangements for the "Baptist" day to be held at the Panama-Pacific Exposition on June 1st.

The date was decided upon yesterday by the delegates to the Northern Baptists' convention which is being held in Los Angeles this year.

THE WORD HELL.

A Little Book That Contains Some Startling Information.

A little book selling at only five cents, postpaid, is having a very wide circulation—running up into the millions. It contains some very startling information respecting the meaning of the word Hell. It claims to demonstrate, both from the Hebrew and the Greek of our Bible, that Hell is not a place of eternal torment, but merely another name for the Tomb, the Grave, the State of Death. It affects to show that man was not redeemed from a far-off place of eternal torture, but quotes the Scriptures proving that he was redeemed from the Grave at the cost of his Redeemer's Life and that the Scriptural Hope, both for the Church and the World, is a resurrection hope based upon the death and resurrection of Jesus. The book is certainly worth the reading. The information it furnishes is certainly valuable, far beyond its trifling cost. Order it at once from the Bible and Tract Society, 17 Hicks Street, Brooklyn, N. Y.

FREIGHT CARS MAY RUN AT NIGHT

It was practically decided by the city council of Oakland this morning to permit the Oakland, Antioch and Eastern railway to operate the freight trains over that part of their track on Shafter avenue, in Oakland, between the hours of 6 p. m. and 8 a. m., on consideration of the railway company deeding to the city a part of the property owned by that corporation in the line of the extension of Broadway.

Several members of the Rock Ridge Improvement club, headed by H. M. Kimball, appeared before the council and entered a protest against granting the railway the right to haul freight cars over their line on Shafter avenue, but their protest was overruled. Mayor Mott said it was the desire of the city council at all times to legislate looking toward the development of the business interests of the city.

The Oakland, Antioch and Eastern railway was built to tap a rich and rapidly developing enterior section of Contra Costa county and Oakland should reap as much benefit as it could from it. If the railway were not permitted to haul freight in or out of the city, Oakland would gain little from the big opportunity that is being offered to it.

"It is doubtful if the residents on Shafter avenue suffer from the operation of trains along the street," continued the mayor, "but if they do their suffering and damage is slight in comparison with the general good the railroad does the city as a whole. The railroad will operate freight cars over the line only at night."
